

COMMIT TO SAVE A LIFE. YES YOU CAN HELP! BE HELPED!! Save Smt.Bharati

During the Blood Drive, we will do Oral Swabbing in a side class room.

SAVE Bharathi! Many Others!

Smt.Bharathi, 56, is from Harleysville, PA. In 2007, she was diagnosed with *Chronic Myeloid Leukemia* (**Blood cancer**), since then she is on oral chemotherapy. In November 2013 doctors identified that her medicine is not responding and *Chronic Myeloid Leukemia* is progressing to **blast crisis** (**Acute Myeloid Leukemia**) with a very rare chromosomal translocation. This disease has very **poor prognosis** (chances of recovery).

The **only available treatment** for overcoming this dreaded disease is a bone marrow/stem cell transplant from a matching donor.

Her **best chance** of finding this donor is from her own racial and ethnic background (South Asian).

YOU MAY BE THE MATCH! YOU MAY SAVE Her LIFE

You can offer Bharathi a precious gift of life and a chance to live out with her family.

Register at www.redcross.org use sponsor code bharatiya

Date Feb 22, 14. 10 am to 3 pm @ Temple Hall.
